Vehicle Service Contract
For motorcycles, ATVs and scooters

Ride with Confidence
Coverage that won't leave you stranded

Vehicle Service Contract
For motorcycles, ATVs and scooters

There's always a risk that your motorcycle, all-terrain vehicle (ATV) or scooter will experience a mechanical breakdown. Just one major repair can cost you considerable time and money.

A service contract provides coverage for parts and labor costs to repair or replace major components on your powersports vehicle. So should you experience a breakdown, all you pay is a small deductible for any covered repair.

Added contract benefits

- **Pick-up and delivery** – If a covered component fails we will reimburse you for pick-up and delivery charges for a maximum reimbursement of $100 per breakdown.
- **Trip interruption (on-road motorcycles only)** – In the event of a covered repair, we will reimburse you for your food and lodging expenses up to $75 per day for up to three days if you break down more than 100 miles from home.
- **Transportation reimbursement (on-road motorcycles only)** – The plan will pay up to $30 per day for up to six days for a maximum reimbursement of $180 when your vehicle is in for covered repairs.

Additional features:

Flexible Options
The cost of your service contract can be paid separately or added to your monthly payment for a small amount each month.

Higher Resale Value
Service contracts can be transferred to the next owner of the vehicle, which can result in a better resale price.

Nationwide Acceptance
Have your powersports vehicle repaired at your selling dealership or any licensed repair facility across the United States and Canada.

Vehicle coverage

Our comprehensive service contract is an all-risk mechanical breakdown plan, where all parts of your vehicle are covered except those specifically excluded. The parts shown below represent only a partial listing of what a service contract covers.

Brakes:
Master cylinder, proportioning valve, calipers, backing plates, park brake assembly and cables, brake linkages, ABS system component parts, load sensing valve, and brake lamp switch. Seals and gaskets;* Fluids and filters.**

Convenience & Tech Systems:
Radio and navigation screen, heated seats and grips, cruise control system, collision avoidance system, heated mirrors, and blue tooth audio system.

Drive Axle:
All internally lubricated parts contained within the differential case including carrier bearings, pinion bearings and Posi clutches plus these non-internally lubricated parts: axle bearings, c/v joints and boots, u-joints, axle shafts, propeller shafts, flex disk, driveshaft yokes, locking hubs, drive axle actuators, and mounts. Seals and gaskets;* Fluids and filters;** Differential housing.

Electrical:
Throttle sensor, fuel pressure sensor, fuel tank pressure sensor, cooling fan sensor and switch, all electrical relays and switches, coolant temperature sensor, vehicle speed sensor, oxygen sensors, heated air intake system, fuel injectors, seat heaters, distributor, electronic timing control sensors, horn, anti-theft alarm, clock assembly, wiring harnesses, anti-theft system components, voltage rectifier/ regulator, fuel level sending unit, ignition coil, pick up coil, cruise control servo, cruise control vacuum reservoir, instrument panel gauges, mirror motors, GPS navigation components, auxiliary power outlets, starter assembly, ignition module, cooling fan motor, wiper motors, stereo/CD player, fuel pump, glow plug sensor, distributor cap and rotor, power train control module, cooling fan, idle air control motor, speed limiter key/rev limiter, alternator assembly, garage door transmitter, remote key fob, low fuel sensor, heated hand grips, cruise control module, hour meter, intercom module, helmet lock solenoid, kickstand motor, tire pressure monitor, electronic fuel injection parts, electronic ignition system and electrical solenoids.

Emissions System:
Fuel tank and fuel lines, fuel gauge level sensor, emission related sensors and switches.

Engine:
All internally lubricated parts contained within the engine block including crankshaft, pistons,

connecting rods, cam shaft and timing gears, plus these non-internally lubricated parts: harmonic balancer, pilot bearing, carburetor, dipstick tube, flex plate, flywheel, fuel pressure regulator, fuel tank, intake manifold, engine mounts, oil pan, air pump, diesel injection pump, diesel fuel distributor, mechanical fuel pump, oil pump drive, vacuum pump, water pump, oil cooler, radiator cap, radiator, ring gear, supercharger, fan, fan shroud, freeze plug, fuel cap, oil pressure switch, coolant overflow tank, timing belt, turbocharger, valve covers, and EGR valve. Seals and gaskets;* Fluids and filters;** Engine block and cylinder head(s).

EV/Hybrid Parts:
High-voltage battery, electric drive motor/generator and all internal parts, transmission, transfer case, power electronics controller, electric drive motor dampener, electric drive motor mounts, and electric drive motor case, inverter/converter/transformer unit, on-board charger, battery coolant pump, drive system coolant pump, junction block, main battery cables, three-phase high voltage cables, voltage inverter reservoir, EV sensors, relays and modules, power button.

Final Drive:
All internally lubricated parts contained within the final drive including gears, shafts, bearings, plus these non-internally lubricated parts: brake bands, shift levers, shift collar, axle, mounts, drive shafts, dampener, and speed pickup sensor. Seals and gaskets;* Fluids and filters;** Final drive housing.

Steering:
Steering sensors, sector, column coupler/u-joint, handlebars, upper steering shaft, lower steering shaft, intermediate steering shaft, steering shaft bearings, tilt and telescopic steering parts, and mounts. Seals and gaskets;* Fluids and filters.**

Suspension:
Control arms and bushings, ball joints, swing arm, wheel bearings and hubs, steering knuckle, spindles and spindle bearings, torsion bars, sway bars and links, radius arms and bushings, coil springs, leaf springs, tube forks, bushings, air springs, track bars, and axle arms. Seals and gaskets;* Fluids and filters.**

Transmission:
All internally lubricated parts contained within the transmission including bands, CVT parts, drive chain, input shaft, main shaft, valve body and viscous coupler, plus these non-internally lubricated parts: torque converter, pressure plate, clutch release bearing, transmission mounts, shift cable, shift linkage, transmission pan, transmission computer, clutch master cylinder, clutch slave cylinder, shifter assembly, transmission cooler, transmission cooler lines, sheaves, sprockets, recoil starter, and kick starter. Seals and gaskets;* Fluids and filters;** Transmission and transfer case housing.

Exclusions:

Exclusions include, but are not limited to, the following parts (see your contract for coverage and exclusion details): antenna mast, audio speakers and wiring; all batteries except EV high-voltage rechargeable batteries; belts, hoses, lines and clamps; body parts; brake linings; brake rotors and drums; cellular telephones; clutch disc; exhaust system; fairing (except for the following parts: fairing mounting hardware, brackets, switches, covers, latches and hinges); filter housings; final drive chain or belt and rear sprocket; frame; fuses and fusible links; glass, lenses, light bulbs and sealed beams; mirrors; mufflers or baffles; shock absorbers; sidecar (except for the following parts: mounting hardware, hub, spindle, wheel bearings, caliper, lines and fittings, suspension, latches and hinges); spark plugs; thermostats; tires, wheels and spokes; trailer hitch; trim, upholstery, paint, moldings; windshield and windshield mounts; home charging station, wall connector, mobile connector, all future connectors, and all related charging adapters. Repairs of water and air leaks (including fogging of and moisture in lamp assemblies), rattles, squeaks, alignment of body parts, fenders, rust, and physical damage are not covered. Any parts or components that are not factory installed are not covered.

The normal maintenance services and parts required or recommended by your vehicle manufacturer and other normal maintenance services and parts are not covered.

* Seal and gasket coverage does not apply if you purchased a used motorcycle, ATV, or scooter unless they are needed in connection with the repair of a covered part.
** When required in connection with the repair of a covered part

Zurich

7045 College Boulevard
Overland Park, Kansas 66211
1-888-835-5063 www.zurichna.com/vehicleprotection

This brochure gives a general overview of Zurich's vehicle service contracts available to qualified customers through individual member companies of Zurich in North America. Certain restrictions and exclusions apply, and coverages may differ in certain states. Please consult your vehicle service contract for detailed terms and conditions.

Universal Underwriters Service Corporation (UUSC), an individual member company of Zurich in North America, is the issuing provider and administrator of Zurich's vehicle service contracts in all states except Florida. In Florida, the issuing provider and administrator is Vehicle Dealer Solutions, Inc. (FL License #60132). In California and New York, UUSC operates under its d/b/a UUSC Service Company (CA License #0C17302).
